## **FOR IMMEDIATE RELEASE**

### **SCIL EXPANDS OFFERING INTO ULTRASOUND**

*Scil Now Offers the Aloka Prosound  $\alpha$ 7 &  $\alpha$ 6 ultrasound systems and the compact Mindray M5 & M7 systems*

**Chicago, Illinois, January 24, 2012** — scil animal care company, inc., a global organization focused on providing high quality veterinary diagnostic, surgical and radiography products is proud to announce Aloka Ultrasound and Mindray Ultrasound. Featuring the Aloka ProSound  $\alpha$ 7 & ProSound  $\alpha$ 6 and the Mindray M5 & M7 systems.

The ProSound  $\alpha$ 7 delivers high-definition imaging, high sensitivity, ease of use and efficient flexible data management. This top of the line system presents multi-functions like Real-Time 3D & 4D images, directional eFlow, high-definition Extended Field of View, CHE (Contrast Harmonic Echo), eTracking (Echo Tracking), KI/A-SMA, TDI analysis, asynchrony measurement, stress echo, various scan methods, and a comprehensive data management system. This system can also be connected to a digital environment via the DICOM network, making it easy to manage patient information and examination records.

The ProSound  $\alpha$ 6 delivers high-definition imaging, broadband harmonics (BbH) and tissue harmonics, adaptive image processing (AIP), spatial compound imaging (SCI), eFlow, trapezoidal imaging, extended field of view (EFV), and contrast harmonic echo (CHE). Its award winning design provides a customizable touch screen, height adjustable operation panel, and swivel and tilt flat panel monitor, an image optimizer, and has lightweight and ergonomically designed transducers. Ranked as the smallest and lightest system in its class this system is backed by a 99% uptime guarantee and is energy efficient. Perfect for the echo friendly office.

The Mindray M5 Hand-carried color Doppler ultrasound system offers users a new generation of a full-functioning, laptop-sized, hand carried ultrasound system. This light weight system delivers you with solid diagnostic confidence. The M5 features brilliant color imaging, 2D performance, that delivers high quality imaging, better contrast and spatial resolution. Because of its unique design, portable features and fast capabilities the M5 makes it perfect to take with you whenever and whenever you need it.

The Mindray M7 hand-carried color Doppler ultrasound system provides clarity, accuracy, and top end performance to meet the needs of your point-of-care business. Crystal clear 2D imagery and multiple transducers provide fast and accurate data that you need to achieve an enhanced level of diagnostic confidence and efficiency.

**About scil animal care company:**

scil animal care company is an international organization with 22 company locations throughout Europe, Asia, the U.S. and Canada, and is dedicated to delivering animal health professionals the highest quality veterinary diagnostic, imaging and orthopedic products.
