LOW

How to use the QR codes:

1. Start the analyzer, wait for Main Menu
 2. Go to Daily routine
 3. Tap menu (≡) button in lower right corner
 4. Align the code on the screen so that only one is visible entirely, aligned parallel with the camera and the front panel.
 5. The analyzer will acknowledge successful scanning with a message.
 6. Repeat the process for all three levels.
- Scanning a QR code multiple times will NOT create multiple QC bank entries

NORMAL

QR Codes are also available as "QRC" files, one for each level. To use QRC files: Copy QRC files to the root folder of a USB stick. Connect the stick when the analyzer is ON. Tap and hold the screen to access local menu. Select "Load QR". Successful loading will be acknowledged by a message.
